

N^o 3382

A.D. 1912

Date of Application, 10th Feb., 1912

Complete Specification Left, 21st Mar., 1912—Accepted, 13th June, 1912

PROVISIONAL SPECIFICATION.

An Improvement relating to Mounts in Picture Frames.

I, WILLIAM ALEXANDER CHARLES POMEROY, 274, High Road, Tottenham, Middlesex, Picture Frame Maker, do hereby declare the nature of this invention to be as follows:—

A rebated moulding or slip attached to the back of the mount in the space
5 cut away to receive the picture, instead of being placed in the rebate of the frame as at present.

The object being to give a better effect to the picture by setting it deeper in the mount.

This invention may be constructed of any moulding, and in any shape desired.

10 Dated the 10th day of February, 1912.

WILLIAM ALEXANDER CHARLES POMEROY.

COMPLETE SPECIFICATION.

An Improvement relating to Mounts in Picture Frames.

15 I, WILLIAM ALEXANDER CHARLES POMEROY, 274, High Road, Tottenham, Middlesex, Picture Frame Maker, do hereby declare the nature of this invention and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement:—

This invention relates to an improved method in the manufacture of picture frames by placing the flat or the slip between the ordinary cardboard or other
20 flat mount & picture, instead of placing in the rebate of the frame.

A frame according to this invention is illustrated in the accompanying drawings in which—

Fig. 1 is an elevation of the frame.

Fig. 2 is a section of the same showing the flat, &

25 Fig. 3 is a similar section shewing the slip.

In Figs. 1, 2, & 3 *a* is the frame constructed in the usual manner, *b* is the glass, *c* is the flat or slip which is attached to the back of the mount with glue at the edges of the space cut away to receive the picture, *d* is the picture which is placed in the rebate of the flat, or glued to the back of the slip as
30 shewn in Figs. 2 & 3, *e f* & *g* in Figs. 2 & 3 are respectively the mount, backboard of frame & backboard of flat or slip, *h* are pieces of wood glued to the backboard *f* as shewn in Fig. 3 to which backboard *g* is attached by strips of paper or canvas glued on & carried over on the backboard *f*.

In Fig. 2 backboard *g* is fixed in the rebate of the flat in the usual manner.

35 This invention may be constructed of any moulding & in any shape desired.

[Price 8d.]

Pomeroy's Improvement relating to Mounts in Picture Frames.

Having now particularly described & ascertained the nature of my said invention & in what manner the same is to be performed, I declare that what I claim is:—

A picture frame having a rebated flat or a slip attached to the back of the ordinary cardboard or other flat mount at the edges of the space cut away to receive the picture, the object being to set the picture deeper in the frame & thereby giving it a greater effect, the picture is placed in the rebate of the flat or attached to the back of the slip. 5

Dated this 21st day of March, 1912.

WILLIAM ALEXANDER CHARLES POMEROY. 10
